Capacity building for Burkina Faso’s transparency system for climate change mitigation and adaptation

Develop Burkina Faso’s institutional and human capacities to meet reporting requirements of the enhanced transparency framework of the Paris Agreement especially for the priority sectors of AFOLU and waste

GEF PROJECT DETAILS
See in GEF website

PROJECT PROPOSAL
See in GEF website

PROJECT OUTCOMES
Institutional arrangements for climate transparency are strengthened to support the long-term strategy on climate transparency
Burkina Faso tracks and reports progress of the NDC and NAP, including public and private investments, especially in AFOLU and Waste sectors

STAKEHOLDERS
Ministry of Environment, Green Economy and Climate Change, Permanent Secretariat of National Council of Sustainable Development
Ministry of Energy and Mining - General Directorate for Energy Efficiency / General Directorate for Renewable Energies
Ministry of Transport
Ministry of Women, National Solidarity and the Family - Permanent Secretariat of National Council for Promotion of Gender
Municipalities (urban local governments) of Ouagadougou, Bobo-Dioulasso and Koudougou
Women Environmental Program (WEP)
Burkina Faso Chamber of Commerce
National Environmental Information Management Programe (PNGIM)
Burkina Faso Association of Women Scientists (AFSCI-B)
Association of Women Jurists of Burkina Faso (AFJB)
Women and Environment Network of Burkina Faso (REFEN-BF)
Association for the Promotion of Women and Children in the Sahel
Nabonswende Women's Group of Ouagadougou
Association of wood-energy retailers in Ouagadougou (Women Association)
TIN-HINANE Women Association
Association of Women Forester of Burkina Faso
Ministry of Water
Ministry of Agriculture
Ministry of Planning and Development
General Directorate of Meteorology
General Directorate of Sectoral Studies and Statistics
National Institute for Statistics and Information (INEI)
Ministry of Animal Resource
Ministry of Research
Coalition of Civil Society Organizations on Climate Change
Forestry Investment Project
National Coordination of Youth Organization on Climate Change
Coordination of association on REDD+
Laboratory of Mathematics and Analysis
2IE International Nonprofit Association
University of Ouagadougou
Economic Community of West African States (ECOWAS)
African Centre of Meteorological Application for Development (ACMAD)
AGHRYMET

**KNOWLEDGE MANAGEMENT APPROACHES**

Documentation of data, information and training and sharing

Documentation and sharing of lessons-learned at the regional and international levels

Participation in the CBIT Global Coordination Platform

**MEET THE FOCAL POINT OF THE PROJECT**

</tbody>
</table>
1.1 A climate change coordination framework and focal points established to plan, track and report climate actions

1.1.1 Identify key stakeholders, their role and responsibilities in climate transparency with a view to propose a coordination framework

1.1.2 Designate focal points at the level of the member institutions of the coordination framework

1.1.3 Develop a decree establishing a framework for coordinating enhancing Transparency in Climate Actions

Deliverable 1: Focal points appointed (letters of appointment from the different participating institutions)

Deliverable 2: Decree creating the transparency coordination framework validated for formal adoption

1.2 Awareness raising through training on climate transparency, MRV mechanisms and integration of NDC and NAP in policy provided to decision makers from government, civil society and private sector

1.2.1 Prepare materials for the awareness raising, and make these available for further access in a website/platform

1.2.2 Organize two sensitization workshops for Government members and parliamentarians on climate transparency, MRV mechanisms and the integration of NDC and NAP into policies

1.2.3. Organize four information and awareness-raising workshops for officials of institutions (technical services, private sector, and civil society) on climate transparency and MRV mechanisms

Deliverable 3: Training materials and tools

Deliverable 4: Reports of training sessions (including gender disaggregated attendance lists) and accessibility of materials in a website

Deliverable 5: Survey/questionnaires evaluating the effectiveness of the workshop (gender disaggregated)

1.3 Climate data sharing protocols developed and adopted

1.3.1 Develop templates for protocols for the operation of climate data sharing

1.3.2 Establish a multidisciplinary working group and organize four working sessions
to monitor and amend draft climate data sharing protocols

1.3.3. Organize a protocol validation workshop

1.3.4 Organize a protocol signing ceremony with the different stakeholders

Deliverable 6: Climate data sharing protocol templates developed

Deliverable 7: Climate data sharing protocols signed

1.4 Long-term strategy on climate transparency designed and adopted

1.4.1 Develop a strategy on climate transparency

1.4.2 Develop a gender action plan related to climate transparency

1.4.3 Develop and implement a communication plan on climate transparency

Deliverable 8: Climate transparency strategy document

Deliverable 9: Gender Action Plan

Deliverable 10: Communication Plan

Deliverable 11: Communication materials resulting from the plan

2. Burkina Faso tracks and reports progress of the NDC and NAP, including public and private investments, especially in AFOLU and Waste sectors

2.1 An analysis of current monitoring and evaluation practices and gaps developed

2.1.1. Analyse the current practice and system for collecting, processing and disseminating climate data

2.1.2. Identify the gaps of the national system compared to the international requirements

Deliverable 12: Analytical report on current practices and gaps for collecting, processing and disseminating climate data

2.2 A domestic MRV system designed, tested and operationalized

2.2.1. Design the MRV system and practices

2.2.2. Set up an Interactive MRV Online Platform

2.2.3. Test the platform with a sector
2.2.4. Evaluate and exchange experience on the testing of the platform, and agree on the expansion of its coverage

Deliverable 13: MRV platform designed (detailed specifications issued)

Deliverable 14: Platform testing evaluation report

Deliverable 15: Domestic MRV system operational (MRV system commissioning report)

Deliverable 16: Survey/questionnaire evaluating the effectiveness of the trainings in the new MRV system (gender disaggregated)

Deliverable 17: Protocol with universities

Deliverable 18: Methodology for developing local emissions factors available

Deliverable 19: Training materials

Deliverable 20: Report from trainings

Deliverable 21: Persons trained attendance list (gender disaggregated)

Deliverable 22: Survey/questionnaire evaluating the effectiveness of the training (gender disaggregated)

2.3 Methodologies for country-specific emission factors developed for AFOLU and related to emission factors in the AFOLU and waste sectors

2.3.1 Establish protocols with universities and research centers on studies/research related to emission factors in the AFOLU and waste sectors

2.3.2. Develop the methodologies to define emission factors in the AFOLU and waste sectors of selected emitters/sources

Deliverable 17: Protocol with universities

Deliverable 18: Methodology for developing local emissions factors available

2.4 Training on MRV system provided to network members and stakeholders from civil society and private sector

2.4.1 Conduct a training session for members of the MRV Platform

2.4.2 Organize two training sessions for local authorities and decentralized technical structures of the concerned sectors on the MRV system

2.4.3 Organize five training sessions for women associations on the MRV system

Deliverable 19: Training materials

Deliverable 20: Report from trainings

Deliverable 21: Persons trained attendance list (gender disaggregated)

Deliverable 22: Survey/questionnaire evaluating the effectiveness of the training (gender disaggregated)

2.5 Peer exchange activities for experience sharing implemented

2.5.1 Organize five peer exchange webinars

2.5.2 Organize a sub-regional peer exchange workshop in Burkina Faso
2.5.3 Actively participate in the CBIT Global Coordination Platform

Deliverable 23: Webinars available in public domain

Deliverable 24: Workshop proceedings and attendance list (gender disaggregated)

Deliverable 25: Inputs from Burkina Faso in the CBIT global platform

Deliverable 26: Surveys/questionnaire evaluating the effectiveness of peer exchanges (gender disaggregated)

2.6 A review of baseline projections of NAP and NDC carried out

2.6.1. Conduct an analysis of the baseline projections of the NDC and NAP, identify inaccuracies and correct these

Deliverable 27: Analytical report on the baseline projections

2.7 Methodology to keep track of progress

2.7.1 Revise NDC and NAP including defining and tracking indicators and targets in the implementation of NDCs, NAP and transparency, including specific indicators, developed

Deliverables 28: NAP and NDC updated

Deliverables 29: Indicators and methodologies for tracking

2.8 Public and private expenditures related to the implementation of Burkina Faso's NDC and NAP identified and tracked in AFOLU and Waste

2.8.1. Evaluate domestic public and private expenditure related to the implementation of the NAP, the NDC and climate transparency in the sectors of AFOLU and Waste

Deliverable 30: Evaluation Report

Deliverable 31: Guidelines to evaluate and track expenditures in two sectors
