MALDIVES

Southern Asia

TITLE

Capacity strengthening for improved transparency of climate change mitigation and adaptation actions in the Maldives

OBJECTIVE

To strengthen institutional capacity for tracking mitigation and adaptation actions and establish climate finance tracking system in the Maldives

GEF PROJECT DETAILS

See in GEF website

PROJECT OUTCOMES

1. The Maldives is able to regularly compile consistent and accurate sectorial GHG inventories to regularly report to UNFCCC.
2. Maldives tracks and report transparently its mitigation and adaptation actions, as well as support for implementation, to UNFCCC and inform its climate policy/action development.

STAKEHOLDERS

Climate Change Department, Ministry of Environment

The Maldives Energy Authority (MEA)

The Maldives Transport Authority

Energy Department, Ministry of Environment

Pollution prevention and waste management department, Ministry of Environment

Ministry of National Planning and Infrastructure

Ministry of Fisheries, Marine Resources and Agriculture

Health Protection Agency (HPA)

The Maldives Meteorological Service (MMS)

Coastal Protection and Disaster Risk Section, Environment Department, Ministry of Environment

Ministry of Tourism

Water and Sanitation Department, Ministry of Environment

Environmental Protection Agency (EPA)

National Bureau of Statistics (NBS)

Ministry of Finance and Treasury

The Maldives National University (MNU)

Civil Society Organization

Private sector

STATUS

Concept approved

CONCEPT APPROVAL

10 December 2019

PROJECT DOCUMENT APPROVAL

Pending

IMPLEMENTING AGENCIES

United Nations Environment Programme

EXECUTING AGENCIES

Ministry of Environment of Maldives

KNOWLEDGE MANAGEMENT APPROACHES

Data-sharing agreements

Close collaboration with other on-going climate change related projects namely the ongoing projects

Application of cutting-edge software and IT equipment

Development of guidelines and guidance documents, as well as tools for data collection, which will be linked to the IT based data base system developed for GHG inventory

PROGRESS

>to be provided by the country focal point<

Project information form (concept note)

English

Concept note of the project, describing the project's objective, outcomes and outputs.
