

- The **Partnership on Transparency in the Paris Agreement** (PATPA, former International Partnership on Mitigation & MRV) was launched at the Petersberg Climate Dialogue in May 2010 by South Africa, Republic of Korea and Germany
- The Partnership aims at encouraging all countries to step up for **enhanced transparency** in order to achieve the global goal of keeping temperature increase well below 2° Celsius, and pursuing efforts to limit it to 1.5° Celsius.

### The Partnership seeks to

Foster **transparency, communication, networking** and trust between countries;

Provide **capacity building and promote a mutual learning process** within regions and among practitioners on a global scale

Identify and disseminate **good practices examples and lessons learnt**

### Partnership formats include:

**Partnership Meetings** held in the margins of UN climate negotiations;

Capacity building activities and peer-to-peer learning through technical workshops in **5 regional and language groups**, and through international conferences

Knowledge sharing and knowledge products, e.g. through newsletters and a website: [www.transparency-partnership.net](http://www.transparency-partnership.net)
