

LECB / NDC Support Programme

*Empowered lives.
Resilient nations.*

Translating ambition into concrete national actions

- GHG inventory systems, NAMAs, LEDS, private sector, NDC work

Regional & global NDC technical dialogues

- NDC process, lessons learned, including MRV/transparency issues

2015-2019 programme – INDC preparation → NDC Implementation

- Whole-of-Government approach to manage the NDC
- NDC Implementation Plans - specific actions in key sectors
- Data monitoring systems

Data management system as central role for Paris implementation

- Long-term planning, making MRV/transparency meaningful
- Using good practices, peer learning, regional networks
- Building on relevant initiatives (NC/BUR, NAMA, NAP, NDC dialogues)
- Building on national inventory systems (data needs, quality, processes)
- Assessing resources needed, institutional structures, coordination, mandates, incentives
